

Math Lessons for Grade 1 - 4

Grade 1

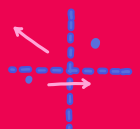

- Numbers and Patterns
- Addition
- Subtraction
- Two, Three Dimensional Shapes
- Spatial Sense
- Comparing
- Estimation
- Data and Graphs
- Time and Money
- Measurement
- Probability
- Sorting and Ordering
- Classifying
- Mixed Operations

Grade 2

- Counting and Number Patterns
- Addition, Subtraction, Multiplication
- Probability, Logical Reasoning
- Comparing
- Ordering names of numbers
- Data and Graphs
- Time and Money
- Measurement
- Geometry
- Estimation, Rounding, Place Values
- Properties, Mixed Operations

Math Lessons for Grade 1 - 4

Grade 3

- Numbers, comparing Place values
- Addition, Subtraction
- Multiplication
- Division introduction
- Division skill building
- Properties, Mixed Operations
- Data and Graphs
- Time and Money
- Measurement and Geometry
- Estimation, rounding
- Logical reasoning
- Patterns, Probability

Grade 4

- Number sense, Logical Reasoning
- Addition, Subtraction, and Multiplication
- Division
- Data and Graphs
- Time and Money
- Mixed operations
- Division, Units of measurement
- Patterns and sequences
- Fractions
- Probability and Geometry
- Geometric measurement
